

**MINDPARTNER™**  
Two Minds Are Better Than One

## The Reminiscence Cards

The **Reminiscence Cards** are special set of cards created for the MindPartner™ program that capture important information about a person's life history. They typically would include categories such as Family, Friends, Schools and Colleges, Special Places, My Work, Sports & Activities and other categories that capture the life history of the individual. Caregivers using the MindPartner™ program can create a such of cards directly and print them on a desktop printer; however, many users prefer to have a permanent set that has been created by a commercial printer. These cards offer memories, entertainment, joy and much more through the Alzheimer's process. They are available in two deck sizes or in sets of 8 cards. Please note that all Reminiscence Cards are custom and relevant only to a single individual.

**The 36 Card Deck.** Each card contains a picture that is part of the individual's personal history, a description of the picture and a card category (if this is relevant). The complete deck consists of 36 cards in four or more different categories based on information stored in MindPartner™ or added directly in the Reminiscence Cards Application.
